LEARN FROM THE BEST

In cooperation with the prestigious University of Sports and Physical Education in Belgrade, the EHCB Coaches Academy offers participants both academic learning and practical learning delivered by EuroLeague and EuroCup head coaches and EuroLeague assistant coaches. Only in the EHCB Coaches Academy do participants get the full picture by also learning from EuroLeague strength and conditioning coaches, EuroLeague doctors, and EuroLeague referees.

The result is a unique educational environment where ideas, experiences, and perspectives are exchanged across borders, creating valuable relationships that extend far beyond the Academy itself.
